DETAILED ACTION

1. Claims 1-20 are in the application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 5, 8-11 and 20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Davis.

Davis discloses a watercraft including at least one electric generator 60; a propulsion means comprising at least one electric motor 72 and at least one apparatus 70 for converting the motor torque to propelling thrust; an energy storage means 44; a first input control means 74 to control the loading characteristics of the generator; and a second output control means 74 to control the electrical power supplied to the electric motor.

Allowable Subject Matter
